

Outdoor Furniture as a gift

A beautiful idea but how do you hand over for example a garden seat and keep it a surprise.

For gift convenience that can help mark that special occasion, birthdays, weddings, Xmas, retirements etc, we offer beautiful photo's of your gifted furniture that we have mounted on a card together with your personal message. This allows the presenter to keep the gift hidden until the appropriate time and makes a wonderful surprise for the recipient when they remove the card from the envelope. If colours have to be chosen they can then visit us and make their own personal choice from the sample swatches available.

This service can also be of help when a group of family or friends all want to contribute together, making a more meaningful and lasting gift. We can then record all their names on the card if required. You may live in another country and want a gift for your family here in New Zealand. We have also had customers who have chosen a Dollar Value for the card and left the furniture choice to the recipient rather than make the choice themselves, no more guessing and everyone gets what they want.

Perhaps you would like a plaque attached. Personal dedication plaques keep memories alive, giving your furniture a special meaning with your feelings expressed in words, simple expressions of love and caring, expressions of thanks or special thoughts. Arrange details with your engraver and we will attach as required.

Just let us know your requirements and we will arrange the details in time for the occasion.
